.....EAT. DRINK. TALK SCIENCE IN A RELAXED ATMOSPHERE. WE ARE COMMITTED TO PROMOTING ENGAGEMENT WITH SCIENCE AND MAKING IT ACCESSIBLE TO ALL.

Modern Plagues: Pigs, Birds, and People

with Dr. Daniel Johnson, Assoc. Professor of Pediatrics, University of Chicago Medical Center

The President's Council of Advisors on Science and Technology issued a grim report predicting large numbers of deaths and hospitalizations for the second wave of swine flu this fall. The Director of the National Center for Immunization and Respiratory Diseases doesn't "necessarily see this as a likely scenario." Some people think the flu is over, others think a hardy dose of reality about this threat is important. Whom and what do you believe?

Come hear Dr. Johnson talk about infectious diseases —our modern plagues.

PLACE: [The Firehouse Grill](#)

750 Chicago Ave., Evanston 60201

DATE: Wednesday, September 23

TIME: 6:15—7:45 pm
